

CLAIMS

What is claimed is:

1. A set of golf club shafts comprising:
at least two subsets of shafts selected from the group including:
a first shaft subset consisting of composite shafts;
a second shaft subset consisting of composite/metal combination shafts; and
a third shaft subset consisting of metal shafts.
2. The set of golf club shafts of claim 1 wherein:
one of said at least two subsets of shafts have lengths within a first predetermined range; and
another of said at least two subsets of shafts have lengths within a second predetermined range;
said first and second predetermined ranges being different.
3. The set of golf club shafts of claim 2 wherein:
said one of said at least two subsets of shafts includes at least one of a 1 iron, a 2 iron, a 3 iron, a 4 iron, and a 5 iron; and
said another of said at least two subsets of shafts includes at least one of a 6 iron, a 7 iron; an 8 iron, a 9 iron, and a wedge.

4. The set of golf club shafts of claim 3 wherein:
said one of said at least two subsets of shafts includes said 3 iron,
said 4 iron and said 5 iron; and
said another of said at least two subsets of shafts includes said 6
iron, said 7 iron, said 8 iron, said 9 iron, and said wedge.

5. A set of golf clubs comprising:
a plurality of club heads having varying lofts; and
a plurality of shafts individually coupled to said plurality of club
heads, said plurality of shafts including at least two shaft subsets selected from
the group including:
a first shaft subset consisting of composite shafts;
a second shaft subset consisting of composite/metal
combination shafts; and
a third shaft subset consisting of metal shafts.

6. The set of golf clubs of claim 5 wherein:
one of said at least two shaft subsets are coupled to club heads
having lofts within a first predetermined range; and
another of said at least two shaft subsets are coupled to club heads
having lofts within a second predetermined range;
said first and second predetermined ranges being different.

7. A set of golf clubs comprising:

a first material shaft subset including at least one of a 1 iron, a 2 iron, a 3 iron, a 4 iron, and a 5 iron; and

a second material shaft subset including at least one of a 6 iron, a 7 iron, an 8 iron, a 9 iron, and a wedge;

wherein the first and second materials are different.

8. The set of golf clubs of claim 7 wherein:

said first material shaft subset includes said 3 iron, said 4 iron and said 5 iron;

said second material shaft subset includes said 6 iron, said 7 iron, said 8 iron, said 9 iron, and said wedge.

9. The set of golf clubs of claim 7 wherein:

said first material shaft subset further comprises a composite shaft subset; and

said second material shaft subset further comprises a composite/metal shaft subset.

10. The set of golf clubs of claim 7 wherein:

said first material shaft subset further comprises a composite/metal shaft subset; and

said second material shaft subset further comprises a metal shaft subset.
